

Dear Parent/Caregiver,

Welcome to the Community Therapy Services (CTS) Early Intervention! We are very excited to start working with you, your child, and your family. CTS Early Intervention is the leading provider of early intervention services throughout the United States. Our family centered-approach is based on evidence based practices proven to have the highest possible impact on a child's future. We provide comprehensive, culturally appropriate therapeutic services for children within their natural environment.

The first years of life are the most important building blocks for your child's future; this is the time that development is most rapid. As parents/caregivers, we know you want your children to reach their full potential. Our providers will partner with you to help develop a plan and strategies that are most suitable to your child and family. The information that you provide is essential because you know your child best and we want to make sure that we are addressing the goals that are most important to you. Your Early Intervention provider will work collaboratively with you and develop a joint plan for how to help you and your family support and promote your child's development.

The CTS Early Intervention Specialist assigned to your child is dedicated to working with your family and providing ongoing support. If you have any questions or concerns at any point while participating in the CTS Early Intervention program, please call us. We sincerely hope that you enjoy your journey with us.

Warm regards,

Community Therapy Services Early Intervention Team
